UPGRADE YOUR CAFETERIA WITH LIGHTNING-FAST POINT OF SALE

POS Simplicity from Tray to Pay.

After more than 20 years of powering cafeterias across the country, we understand what schools need to succeed. Vanco's new POS system was designed to speed up lunch lines, anonymize students with free or reduced lunch and streamline cafeteria management.

Fast. Powerful. Secure. Our POS system is everything you need and more to run your cafeteria.

POINT OF SALE REINVENTED

Keep Lines Moving Fast
Students can check in using a pin pad, student ID or biometrics to keep lines moving fast.

Get Dietary or Allergy Alerts
On-screen alerts alleviate concerns about student allergies or dietary needs.

Offer Anonymous Check-Ins
Check-ins are anonymous to avoid publicly identifying free or reduced meal recipients.

Post Payments within Minutes
Funds added to student accounts are available within minutes with live syncing.

Speed Up Transaction Processing
Transactions are saved locally and sync in the background for faster processing.

Access Tools Designed for Schools
We offer a suite of POS hardware options and software designed with schools in mind.

Easily Correct Mistakes
Cashiers can review a full list of transactions in the POS journal to correct mistakes and add notes.
